EDUCATION

2019 - 2024
DEBRE BIRHAN UNIVERSITY

- Bachelor degree of software Eng.
- GPA: 3.58 / 4.0
- Exit Exam: 69/100

SKILLS

- Problem Solving skill
- Communication
- Leadership

Database

- Postgresql
- MongoDb
- mysql

Technologies

- Express>js
- NestJs
- Angular
- Nextjs
- React
- Flutter
- Git
- Docker

PROFILE SUMMARY

I'm passionate and hardworking software engineer with experience in building web and mobile application development. As an experienced developer, i excel in all stages of advanced web development and am skilled in both self managing independent projects and collaborating effectively in team settings

PROJECTS

Abune gorgoriwos School Management system

January 2024- May 2024

FullStack web and mobile application developer

- Implemented REST API integration to dynamically retrieve and synchronize data between the server, web application, and mobile application, with role-based API protection.
- Designed an attractive and user-friendly interface to enhance the end-user experience.
- Successfully developed a comprehensive school management system to meet all the client's requirements.

Debre Birhan univesity PRMs project

May 2024- August 2024

FullStack web and Mobile App developer

- I implemented and developed a nestjs Api that requires PRMS(personal computer registration management system) and a barcode generator Api , with role based api protection for enhanced security.
- I also developed an easy to use interface for web application and a mobile application that includes a barcode scanner, ensuring a seamless and intuitive user experience across platform.

- Programming language
- c++,
- java,
- php,
- python
- javascript
- Typescript
- Dart

- English: Conversation
- Amharic: Fluent
- Oromic: conversation

WORK EXPERIENCE

Sekela Tech Solutions

January 2024- present

Team Cordinator and Fullstack developer

- As a highly skilled Fullstack Developer and dedicated Team Coordinator, I have successfully led cross-functional teams in delivering robust, scalable software solutions. My experience spans both front-end and back-end development, ensuring that I can manage the full product lifecycle while also coordinating tasks and fostering team collaboration.

Key Responsibilities:

- Team Leadership: Managed and coordinated a team of developers, designers, and stakeholders, ensuring clear communication, task distribution, and timely project delivery.
- Project Management: Oversaw project timelines, assigned tasks, and facilitated daily stand-up meetings, resulting in efficient team collaboration and project completion.
- Fullstack Development: Designed and implemented end-to-end web applications using a range of technologies, ensuring responsiveness, scalability, and performance.
- Technology Stack: Expertise in modern technologies like React, Angular, Node.js, Express, MongoDB, PostgreSQL, and more, allowing for flexible development across multiple platforms.
- Agile Methodology: Implemented agile development practices like Scrum enhancing team productivity and ensuring continuous delivery of high-quality software.

Key Achievements:

- Successfully delivered complex web applications for high-profile clients within tight deadlines while maintaining high standards of quality and performance.
- Developed and integrated APIs and databases that significantly enhanced application performance and user experience.
